

Is Your Flight School Ready for Concierge AI Support?

A Quick Fit Checklist

Not every flight school needs advanced lead capture and support. This quick checklist helps you see if it's the right time for your operation. Answer honestly—if several of these apply, your school may be losing students every month without realizing it.

- Do you lose inquiries after hours or on weekends?
- Does your team spend hours answering the same FAQs?
- Are your instructors or staff tied up with scheduling instead of teaching?
- Do you experience no-shows or missed discovery flights?
- Is your website just a form or email link, with no real-time scheduling?
- Would you like to look more professional to prospective international students?

How to Score Yourself:

- If you checked 2 or more boxes: Your school can benefit immediately from concierge AI support.
- If you checked 4 or more boxes: You are likely losing significant students every month.

What Schools Achieve:

Schools using concierge AI support have seen up to a 30% increase in captured leads and fewer no-shows, all while reducing the workload on instructors and staff.
